

## COMPANY PROFILE

  
**MERINT**  
*Bringing Smiles...*

# About MERINT

---

Merint Group has been in business for over 40 years with operations in over 15 countries. Headquartered in Dubai, it has offices in UAE, Qatar, Kingdom of Saudi Arabia, Kenya, Poland and India. Its main activities include Architectural Glass, Glazing Machinery, Property Development, Interior fit outs, Manufacture of kitchen cabinets and wardrobes, Nuclear Medicine.

Merint LLC Dubai, the first member of the Merint family, has partnered with Saint Gobain, the French glass manufacturer, almost since its inception in 1977. It is a market leader in the delivery of customized solutions in the glass industry over the Gulf region and East Africa. This division also supplies, installs and maintains machinery and tools for the glazing industry.

In addition, Merint provides Fire rated systems - doors / windows / partition, approved by the Department of Civil Defense. It has partnered with Jansen Steel Systems, who are one of the pioneers in manufacturing fire rated profiles.

Merint is also in the field of Nuclear Medicine and has successfully supplied Medical Cyclotron to the Department of Atomic Energy in India, and worked on projects in several other countries like Kenya, Saudi Arabia and Pakistan.

In Noida, on the outskirts of Delhi it operates with Belgian Principals a cyclotron manufacturer that supplies FDG for cancer detection to major hospitals in the NCR region.

Merint Interiors LLC, Dubai provides turnkey interior and shop fit out solutions by leveraging its expertise in architectural glass and project implementation. It is a recommended contractor in major Malls in the Gulf region.

Merint Furniture Factory LLC, Dubai manufactures kitchen cabinets and wardrobes of supreme standards and has received certification from the Government of Dubai.

Merint Developers Private Limited, India is establishing a new bench mark by developing ultra-high-end luxury apartments in Pune, India, designed by the world-renowned architect, Atkins; with many 'firsts' in the industry.

Merint S P Z o. o., Warsaw, Poland has developed 28 apartments on an envious ski slope located in Wisla, Poland.

Merint Foundation, India is happy to be of service to the underprivileged in areas of education and health care.

## Chairman's Message

---

The core DNA of Merint Group is surmised in two words: **'Bringing Smiles'!**  
We are here to bring smiles to people's faces: be it principal, customer, staff, friend, family or society.  
In pursuit of our vision, all our team members are made aware of and instilled with values to make this happen in all our day to day business activities be in our professional or our personal lives.

# Architectural Glass

---

Merint L.L.C, partnering with Saint Gobain Glass, is one of the market leaders in the distribution of high quality glass products in the Middle East and Africa. Since 1977, Merint L.L.C Saint Gobain has been providing innovative and cost effective solutions that include self-cleaning windows, safety glass, fire protection glass and acoustic glass to its clients. With well trained staff having expertise in the technical aspects of glass, Merint offers unique assistance to consultants, contractors and developers to advise best fit solutions for creating sustainable environments in addition to providing other value added services.

Merint L.L.C has introduced much lauded quality delivery systems including stocking of glass certifying local glass processors within the Middle East Region through Saint Gobain, which has helped the clients to source processed glass locally and economically.

Over four decades of faultless service and matchless distribution system has helped Merint L.L.C earn innumerable commendations from their customers. With this belief in integrity and reliability, Merint has maintained its position as a partner of choice in the region.

---

## Partnership for over 40 Years

# Product Range

---

## Advanced Architectural Glass for Exterior Facades

### SGG PARSOL

Body-tinted glass with a coloured appearance

---

### SGG REFLECTASOL®

Solar control glass with superior aesthetics

---

### SGG COOL-LITE®

High performance advanced solar control glass that provides optimum light transmission with minimal visual glare

---

### SGG PLANITHERM®

Advanced thermal insulation glass (Low-E) that reflects long wave heat radiation and provides high thermal insulation

---

### SGG EVO®

Solar control and thermal insulation glass for single glazing application

---

# Product Range

---

## SGG NANO®

Advanced solar control and thermal insulation glass (single silvered Low-E), with twin performance that directly fits green building requirements

---

## SGG ENVISION®

State-of-the-art solar control and thermal insulation glass double silvered Low-E glass, with spectral selectivity (light-heat ratio)

---

## SGG COOL-LITE® XTREME

Extremely high selectivity glass with advanced thermal insulation properties

---

# Product Range

## Glass to the Max Upto 18 M

SGG PLANICLEAR, SGG DIAMANT in 8, 10, 12 and 15 mm Coated Glass SGG PLANITHERM II, SGG COOL-LITE SKN II and XTREME II in 8, 10 and 12 mm, Products

tempered safety glass, heat-soak-tested tempered SGG PLANICLEAR, SGG DIAMANT in 8,10, 12 and 15 mm, Coated Glass

SGG PLANITHERM II, SGG COOL-LITE SKN II and XTREME II in 8, 10 and 12 mm, Products

tempered safety glass, heat-soak-tested tempered safety glass, heat-strengthened glass, laminated safety glass, heat-strengthened glass, laminated safety glass, laminated safety glass (also with SGP), multifunctional insulating glass Processing options cutting, CNC processing and drilling, edge processing, ceramic frit by digital printing method, colored and functional interlayers

Maximum overlength

**18,000 x 3,210 mm**

From 2017 on we will be industrial manufacturer, processor and distributor to consult and supply the market worldwide with maximum overlength dimensions up to 18,000x 3,210 mm –as single sheet and isolation glass unit.

The benefits are groundbreaking:

- More design options
- Creating optical highlights
- Shaping large evenly façades
- Shorter assembly time
- Spares costly construction

## ADVANTAGES

- Reliability over time. More than 20 years of experience and best results to ageing test
- Unparalleled level of transparency
- Light transmission almost identical in the transparent and translucent states
- European production + CE certificates
- Low power consumption
- Instantaneous and silent change of state via simple command
- P5A - P6B class par Tested protection against intruder attack
- 5 years guarantee

# Product Range

---

## Interior products

### **PRIVA-LITE®**

Switchable glass for modular partitioning and PRIVACY management

---

### **SGG PLANILAQUE EVOLUTION®**

SGG PLANILAQUE EVOLUTION range of premium high durability lacquered glass unites coloured lacquer with the brilliance of glass to give your interiors a fresh new look

---

### **SGG DECORGLASS®**

AN EXCLUSIVE RANGE OF PATTERNED GLASS FOR VISION CONTROL AND DECORATION

---

### **SGG STADIP SILENCE®**

Beautifully transparent noise control glazing

---

# Product Range

Founded in 1923, Jansen has grown into an international and leading manufacturer of innovative and extensive range of window, door and façade systems, shaping modern building technology. Jansen develops, produces and distributes worldwide steel systems suitable for complex standard solutions as well as special requirements. They are pioneers in safety matters, from burglar and bullet resistance to fire protection.

Jansen has partnered with Merint LLC to cater to the requirements in the region.

Merint and Jansen are equipped to develop solutions that meet the highest requirements regarding function and design, energy efficiency and durability, performance and safety.
